

DJI AGRAS T25P

LIGHT • NIMBLE • PRECISE

The DJI Agras T25P is the compact, foldable spray and spread drone built for one-person operations – small to mid-size fields, specialty crops, and spot treatments.

At 73 pounds with battery, it folds to fit in a pickup bed and sets up in minutes.

Front and rear radar and a tri-vision camera system bring terrain following, obstacle bypass, and one-click automatic operation – full-size intelligence in a right-sized package.

**During field testing. Actual results will vary due to field conditions, application rate, firmware evolutions, etc.*

5.3 GALLON — SPRAY TANK

55 LB — SPREADER CAPACITY

22 MPH — TOP SPEED

20+ — ACRES PER HOUR*

50-500 — MICRON SIZE

T25P

- Small to mid-size fields, specialty crops, and spot spraying
- Cover crop seeding and granular fertilizer
- Orchards, food plots, pastures, and hard-to-reach ground

AERIALL.COM

RIGHT-SIZED PERFORMANCE

5.3 gal spray tank and 55 lb spreader on a 73 lb airframe

Spray flow rate: 4.2 gal/min standard, 6.3 gal/min with the 4-nozzle kit

13 to 23 ft spray swath; 10 to 26 ft spread swath

Spread rate up to 420 lb/min

SMARTER TECHNOLOGY

Safety System 3.0: front and rear radar plus tri-vision cameras sense obstacles out to 200 ft

One-click takeoff, automatic mapping, and obstacle bypass

RTK positioning accurate to ±1 inch – lands in the same track every flight

PROVEN EFFICIENCY

Folds to 44" x 28" x 33" for one-person transport in a pickup or UTV

30,000 mAh DB1560 batteries recharge from 30% to 95% in 9 to 12 minutes on the C10000 charger

Same app, mapping, and workflow as the T100 – one system across your whole fleet

Sold, serviced, and supported by AeriAll in Minnesota

**During field testing. Actual results will vary due to field conditions, application rate, firmware evolutions, etc.*
